## MANAGERS MESSAGE

The 1975 State Sale will be just a bit smaller than normal, especially in the bull offering. We have 25 bulls for the sale, but they are good and strong aged. These bulls are big and ready for service. Included are the 1974 Kansas State Fair grand champion, and the 1975 Nebraska State Fair champion. These bulls are much like the group that we sold in the 1973 sale to a Texas rancher. I visited with him recently, and he said their calves from their Shorthorn bulls and black baldie cows averaged 73 lbs. per calf heavier than their black baldie calves.

We also have another good consignment of young cows and heifers. Many of these have calves at side. You will find some real fine foundation stock in these cows.

We also have about 20 1975 heifer calves, and 25 steer calves. I'm sure you will find some show winners in this group. Several champions emerged from last years offering.

The annual meeting and banquet will be held at the Rambler Steak House on east 4th street in Hutchinson, November 6 at 7 p.m. It is informal, and we encourage everyone to attend.

The lassies will hold their business meeting following the dinner also.

See you in Hutchinson

Bill Scott, Sale Manager

## STANDARD GUARANTEE

(Recommended by American Shorthorn Association)

- A. Proper care must be given to purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf, must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee, the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case of dispute, the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy, if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

## WHY BUY SHORTHORNS?

Shorthorn bulls are active, sure breeders.

They put more growth into their calf crops.

Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn crossbred feeders far exceeds existing supplies. Sonsequently, they sell for a premium.

Shorthorn bulls put more miling ability into their daughters.....this means heavier weaning weights.

Shorthorn docility is world famous, making them ideal projects for youngsters.

Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.

Shorthorns are known as **THE GREAT IMPROVERS.** Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.

Ask yourself why so many commercial herds are now crossbreeding with Shorthorns? **IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.**

## THE SUPER EXOTIC

One of Europe's best!!!!

Originating in Northern England, the breed is unbeatable from a combined BEEF—MILK standpoint. It is enjoying great success in North America, Africa, Australia, South America.....WHEREVER CATTLE HAVE TO MAKE IT ON THEIR OWN.

The breed combines SIZE and RAPID GAINING ability with HIGH FERTILITY, TOP CALVING PERCENTAGES, LOW MAINTENANCE COSTS, and UNSURPASSED CARCASS GRADE at popular packer weights.

Their DOCILE TEMPERAMENT makes them ideal to handle on either farm or ranch. You won't have to buy extra barb wire to keep the buggers in.

And MORE IMPORTANT.....they have been PROFIT—PROVEN in the United States for nearly 200 years. Why speculate? Go the Shorthorn-Polled Shorthorn route!
